

WEB DESIGN AND DEVELOPMENT II - (420-ID-CW2)

FINAL EXAM - PRACTICAL

Date: 10-April-2021

DEADLINE: Today, 12:30pm

Read carefully all the instructions below:

1. Using the template provided by your teacher, you must build as best as possible to reach the same visual result using HTML and CSS.
2. You don't need to use the exact same colors, font-family, font-size or spacing (padding, margins, etc), but you must try to make them similar. You must use the same text of the template.
3. Use **only HEXADECIMAL** code for the colors. Make sure to select a beautiful color palette to make your website look attractive for the users.
4. The IMAGES used on the template were also provided by the teacher. Download them to your project and use them.
5. **<HEADER>**: On the header, you are going to have the list element on the center. Pay attention to all the details (Color, font-weight, text-transform, etc).
6. **SECTION 1: BIG BANNER** - For this first section, you must use 700px of height. Use the DISPLAY FLEX technique to center the box with the text. Pay attention to the details on the text and try to make it equal.
7. **SECTION 2: ABOUT** - For this section, you must use a CONTAINER to keep the content in limited size (800 or 1000px Maximum will look good). Use the display flex parent to keep elements side by side.
8. **SECTION 3: Small banner** - For this section, you must use a background image. You don't need to give a specific height. Use padding vertical to provide vertical centering to the text.

9. **FOOTER:** To finish, you can make a <section> or use the tag <footer> or <div> to make the black bar on the bottom with the short sentence.
10. When you finish, submit your folder (ZIP format) With the following structure (naming): **YOURNAME_FINAL_EXAM_WEB2**
11. Exams received after deadline or wrong naming will not be accepted. Also, send a message to the teacher to share your screen and present your code. A few questions will be asked and will be also part of the evaluation.

Evaluation Points

- 1) Final result - Design/Visual correspond to the template: _____ / 2 points
