FINAL PROJECT - WEB 2

Website page building - project "cleaning"

1. You must build the template provided by the teacher using HTML and CSS.

2. You can use SIMILAR COLORS and SIMILAR FONT FAMILIES. Dont use very different ones from the original template. The text must be the exact same.

3. PART 1: HEADER. You must build the header following the technique explained during class 16. Put a height of 80px to the header. The navigation bar (menu) must be on the center.

4. MAIN-BANNER: It must have 600px of height. USE display flex to center the textbox. You can use a similar image OR , better, use the image provided by teacher.

5. SECTION "ABOUT CLEANING COMPANY" . You must use the technique to position IMAGE and TEXT side by side. Each DIV can have 50% of width. USE ANY IMAGE on the left (background image). The teacher will provided the original one. Use the same text . Try to use very similar colors AND font family.

6. Once you finish, Send HTML and CSS on separate files directly on slack. ALSO Send the files in a ZIP folder, respect the name of the folder: **YOURNAME_FINAL-PROJECT_WEB2**

```html
<header>
    <div class="container">
        <ul class="navigation">
            <li>Home</li>
            <li>About</li>
            <li>Products</li>
            <li>Blog</li>
            <li>Contact</li>
        </ul>
    </div>
</header>
```

```css
header{
    background: tomato;
}

.navigation{
    list-style: none;
    display: flex;
    height: 50px;
    justify-content: center;
    align-items: center;
}

.navigation li{
    margin-left: 20px;
    margin-right: 20px;
    color: white;
    font-family: verdana;
    font-size: 20px;
}
```
